REGARDING: RESPIRONICS MEDICAL DEVICE RECALL NOTIFICATION

Today's DME Inc. is committed to providing quality services and products. If an issue arises, our goal is to be proactive in communicating and addressing such issues as we work tirelessly towards a resolution. Today's DME Inc. wants to let you know about the Respironics medical device recall for PAP therapy devices.

Attached is the recall notice provided from Phillips Respironics. As a result, all of Today's DME Inc. clients with Philips Respironics Dream station PAP devices are currently being reviewed and we are working with Philips Respironics to determine the best way to take care of our clients.

As this is a worldwide issue, the process may take a bit of time and we are asking for our clients to please be patient while we work with Philips Respironics to resolve these issues and transition.

We along with all local Doctor offices are asking all PAP therapy users to follow Philips Respironics recommendation that clients halt the use of ozone-related cleaning products and adhere to their device Instructions for Use for approved manual cleaning methods. To contact your Dr before stopping your pap therapy to avoid serious medical problems from occurring. Asante Physician Partners (APP), Grants Pass Clinic, Siskiyou Community Health Center, the Lung Clinic

At this time, it is our understanding that Philips Respironics will be mailing out letters this week. Thursday the website registration will be opened to complete the online recall registration. At this time, it is unknown how this process will exactly work. If you have any questions, please contact Today's DME Inc. at 541-787-4515. If you are unable to register your equipment online for the recall we will be happy to assist you.

As more information becomes available, please check our webpage at WWW.Todaysdme.com

Thank you for your understanding and patients.

Sincerely,
Melody Hannah, RRT, Owner
